

# Requirements for Becoming a Home Share Provider

Langley Association for Community Living is committed to ensuring that the services that we provide meet the highest possible standard. We are dedicated to inspiring a community where everyone belongs and are seeking Home Share contractors who also embrace this value.

Welcoming another person into your home is a significant commitment and should be a decision that everyone in your household participates in. Home Share contractors are carefully screened by our Coordinators to ensure that your values and beliefs are aligned with ours.

We also required that Home Share contractors provide evidence of the following mandatory requirements as part of our screening process. Our Coordinators are available to assist you to complete each of these items following receipt of your application.
